

## **Visus LLC Granted a University of California System-wide Professional Services Agreement**

*Visus has been granted a University of California system-wide professional services agreement by the University of California Office of the President. The two-year agreement enables any UC campus to sign a contract with Visus LLC for consulting services.*

Visus LLC, an enterprise software solutions company focused on solving real business challenges, announced it has been granted a University of California (UC) system-wide professional services agreement by the University of California Office of the President. The two-year agreement enables any UC campus to sign a contract with Visus LLC for consulting services. The agreement was signed on the heels of the successful completion of a highly challenging web-based solution developed for one of the UC campuses.

“Getting a UC system-wide vendor agreement in place is a wonderful opportunity for Visus LLC to deliver successful solutions to other UC campuses,” said Michael Daoud, CEO of Visus LLC. “As the UC system continues to update its technology infrastructure, we look forward to applying our unique analysis and development process and open communications model to ensure we deliver a quality solution along with an excellent experience.”

### **About Visus LLC**

Visus LLC, an enterprise software solutions company, excels at developing enterprise-ready web applications and business intelligence solutions. Corporations and public sector organizations rely on us for well-designed solutions that work right the first time. By collaborating closely with clients, we fill the gap that often exists between a company’s vision and the technical implementation, creating a custom-architected solution that solves the business problem and delivers an ongoing ROI spanning 7 to 10 years. The company was founded in 1994 by Michael Daoud, a successful entrepreneur who also hosts a CIO Roundtable and is on the board of the MIT Enterprise Forum of the Central Coast. Visus LLC, a Microsoft Gold Certified Partner serving customers throughout North America, was recently selected as a Top 20 Software Firm in the Tri-Counties by the Pacific Coast Business Times.
